

Summary:-

Highly motivated and detail-oriented Full Stack Web Developer with a strong passion for creating dynamic and responsive web applications. With proficiency in JavaScript, HTML, CSS, Node.js, and React, I excel in both front-end and back-end development. I have hands-on experience building RESTful APIs and working with databases such as MySQL. My quick learning skills, problem-solving skills, attention to detail, and ability to collaborate make me an asset in team environments.

EXPERIENCE: -

10/2008 - 04/2016

**Physics Teacher in Ethiopia
Ministry of Education**

During my time as a high school physics teacher from 2008 to 2016, I had the privilege of witnessing numerous students discover the wonders of the physical world and develop a deep appreciation for science. It was an incredibly rewarding experience, and here are some highlights from my teaching journey:

- *Engaging Experiments: I designed and conducted captivating experiments that allowed students to apply theoretical concepts in practical settings. Seeing their faces light up with excitement and curiosity as they observed real-life phenomena was truly gratifying. These experiments not only made the subject come alive but also enhanced their understanding and critical thinking skills.*
 - *Collaborative Learning: I fostered a collaborative and interactive classroom environment. Students worked together on group projects, engaged in lively discussions, and participated in hands-on activities. This approach encouraged peer-to-peer learning, developed teamwork skills, and created a supportive community within the classroom.*
 - *Connecting Physics to Everyday Life: I strived to demonstrate the relevance of physics in students' daily lives. By incorporating real-world examples, current events, and practical applications, I helped them understand how physics impacts various aspects of their existence, fostering a deeper appreciation for the subject.*
-

G2 secure staff MSP**05/2016 - 07/2023****Supervisor**

- *Team Leadership: I led a team of passenger assistance personnel, including coordinators, support staff, and volunteers. I provided guidance, training, and support to ensure the team had the necessary skills and knowledge to deliver excellent service.*
- *Service Coordination: I coordinated the scheduling and logistics of passenger assistance services. This involved working closely with airline personnel, ground handling companies, and other relevant stakeholders to ensure a seamless and efficient experience for passengers requiring assistance.*
- *Training and Development: I organized and conducted training programs for passenger assistance staff, focusing on areas such as disability awareness, customer service, proper handling techniques, and safety procedures. I also kept the team updated on any changes in regulations or best practices related to passenger assistance.*

SPPS (USA, MN)**09/2022 - 05/2023****Teacher at Washington****Technology magnet school**

- *As a math teacher for middle-class students in Minnesota, my experience was centered around creating a positive and engaging learning environment while catering to the specific needs of my students. Here is an overview of my teaching experience:*
- *Differentiated Instruction: I recognized the diverse learning styles and abilities of my students and implemented differentiated instruction strategies. I utilized various teaching methods, resources, and materials to accommodate different learning preferences and ensure that every student had the opportunity to excel.*
- *Individualized Support: I provided individualized support to students who needed extra assistance or challenges. Through one-on-one sessions, small group instruction, and ongoing assessment, I identified areas of improvement and tailored instruction to address their specific needs, ensuring that every student received the necessary support to succeed.*
- *Collaborative Learning: I encouraged collaboration and teamwork among my students. Group discussions, peer teaching, and cooperative learning activities were integral parts of my classroom. By working together, students developed communication skills, learned from one another, and built a sense of community.*

EDUCATION**Arba Minch College of Teacher's Education, Ethiopia****2006 - 2008****Diploma in Natural Science**

- *The Diploma in Natural Science with a focus on Biology, Chemistry, and Physics offers a comprehensive program that integrates these three key disciplines of the natural sciences. This diploma is designed for individuals who have a strong interest in understanding the fundamental principles and applications of biology, chemistry, and physics, and how they intersect in the study of the natural world.*

Wolaita Sodo university, Ethiopia**2011 - 2014****Applied Physics**

- *The Degree in Applied Physics is an interdisciplinary program that combines the principles of physics with practical applications in various fields. This degree is designed*
-

for individuals who have a strong interest in applying physics to solve real-world problems and contribute to technological advancements.

SKILLS

Technical Skills

JavaScript ES6 | jQuery | HTML5 | CSS3 | React | Bootstrap | REST API | Node | NPM | Express | JSX | JSON | WordPress | MySQL | jQuery | Git | GitHub | Adobe Photoshop | VS Code | Shopify | Deployment.

SOFT SKILLS

- *Strong problem-solving and analytical skills*
 - *Excellent teamwork and collaboration abilities*
 - *Effective communication and interpersonal skills*
 - *Detail-oriented and highly organized*
 - *Ability to work in a fast-paced and deadline-driven environment*
 - *Quick learner with the ability to rapidly grasp new concepts and technologies.*
 - *Responsible to complete any given project on time.*
-
